

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Trade is permitted. Riba is forbidden.

This is life and death.

We will build a new financial order —
and document it in real time.

1.8 Billion Muslims. Zero Real Choice.

Paper Money is a Lie

Since 1971, every major currency is backed by nothing but government promise. Inflation silently transfers wealth from savers to debtors. Your BDT loses value every year.

Banks Work Against You

They borrow your money at 2%, lend it at 12%, and seize real assets when borrowers fail. Fractional reserve banking creates money from nothing. This is the system.

Islamic Banks Aren't Halal

Conventional instruments dressed in Arabic labels. The community knows it. The frustration isn't confusion — it's betrayal. There has been no legitimate alternative.

Talk is cheap. Trade is proof.

**This is not a business.
This is a mission
I will spend 15 years building — or die trying.**

Ye Hussein Muhammad (Moontasir)

12 years across business, consulting, and social impact. Co-founder of Bidcon.org. North Bengal roots with access to agricultural networks and urban capital.

The Unfair Advantage

Most founders build startups hoping to exit in 3-5 years. I am building a financial movement I believe Allah has commanded me to create. This is life and death for me. I will not quit when regulators push back. I will not quit when trades fail. I will not quit when investors lose faith.

That level of conviction — anchored in faith, proven through Trade #001 already executing — is the only moat that matters in a 15-year war against the riba system.

Operational Proof

I don't theorize. AAA Supplies Trade #001 is in transit right now. I learn by executing, not by planning.

Network Depth

Access to smallholder farmers in Rangpur through family networks. Access to Dhaka capital and UK Islamic finance ecosystem through established connections to Harris Irfan (Cordoba Capital), Ibrahim Khan (IFG/Cur8 Capital), and Bangladesh diaspora networks.

We're not asking you to fund a startup.
We're asking you to **accelerate** what's **already moving**.

2041 HORIZON — \$100 Billion managed. 10 Million Muslims freed. 1,000+ autonomous entities. 50+ countries.

Four Pillars. One Movement.

Each pillar strengthens all the others. Content builds trust. Trust creates investment. Investment creates proof. Proof creates content.

01

MEDIA

Ye Should Be Made Free

Weekly podcast on Allah, purpose, money, masculinity. Content is consciousness. Trust is currency. The movement's soul.

02

CAPITAL

Tayyib Capital Fund

Riba-free TC Units from BDT 12,000 minimum. Real trades, real transparency, real returns. The movement's proof.

03

COMMUNITY

Brotherhood of the Free

Fajr runs at dawn. Dhikr circles. Activist challenges. Commitment-screening builds the loyalty for a 15-year war.

04

TECHNOLOGY

Open-Source Financial OS

Blockchain ledger. TC Unit infrastructure. Open-source by Year 3. Anyone can launch Tayyib Capital anywhere.

BDT 40 Lakh

Pre-seed capital for 6-month runway to build the operational infrastructure that launches Tayyib Capital in January 2027.

What You Receive.

Two options. You choose based on your preference.

OPTION A — EQUITY

Ownership Stake

10% equity in Tayyib Capital Pvt Ltd for 40L (pre-money valuation 4 crore)

Board observer seat with strategic input rights

Exit opportunity in Year 3 when Series A happens or TC hits \$10M AUM

- Founding Angel Partner status — your name in the permanent origin story

OPTION B — REVENUE SHARE

Cash Flow (Mudarabah-style)

15% of TC's management fee revenue for 5 years

No equity dilution for you as founder

Angel gets paid from actual profits, never from capital

- Estimated return: 60L–1.2 crore over 5 years if targets hit

Either way, you're not buying shares. You're joining a 15-year mission.

We are not naive. We are prepared.

Trade Failure

Diversification across commodities + pre-sold inventory only + public transparency prevents cover-ups. Store Chamber guarantees 50% preservation even if all Flow trades fail.

Regulatory Crackdown

Proactive BSEC engagement + political protection via investor base + Shariah advisory board legitimacy. We operate within permitted activities and escalate licensing as scale rises.

Customer Acquisition Cost

Content-led trust (podcast) reduces CAC + referral incentives + proven conviction-driven messaging from existing outreach. Budget allocates 10L specifically for acquisition.

Key-Person Dependency

Open-source playbook by Year 3 + distributed decision-making from Day 1 + community-driven replication model. The movement is bigger than any one person.

Target: 120 founding investors, 18L inflow

Proof: 3 completed trades, 24 podcast episodes, 5K followers

We believe 2028 is when things **crash**.

When the global debt system collapses, people won't look for another bank. They'll look for something real. Something verified. Something not built on what just failed them.

Tayyib Capital will have been operating transparently for 18 months by then. Hundreds of trades settled. Tens of thousands in the Brotherhood. The blockchain ledger will be undeniable proof.

We are not positioning for after the crisis.

We are building the alternative people run to **during it.**

Every Prophet faced Pharaoh-like opposition. Every Prophet won.
